

Dear Spottedredsea,

I would like to share the following business news with you and your readers.

Special decoration in Sharm el Sheikh, Karizma, flowers and more:

We are specialized in creating custom designs with silk flowers and plants for all types of projects including hospitality, retail, offices, boats and private homes.

More and more people are switching to silk florals because of the high quality that makes them look more realistic than ever before. Artificial flowers plants can give you the look of completion to your décor and a feel of serenity without the hassles of live plants.

The lifespan of real flowers is so short why not have your flowers look their best at all times?

So many different types of atmospheres can be created with the use of plants and flowers to highlight your interior features. Artificial flowers can go into any environment, such as a night club, which gets little light, or an outdoor terrace, which might be too windy for real flowers to survive.

We are here to help you with any need you might have. Whether you know exactly what you want, or you need recommendations, no request is too big or too small.

We are happy to design and set up creative arrangements including:

- Lovely small arrangements for breakfast, lunch, and dinner tables
- Concepts for reception, lobby, bar, lounge, office, spa and bathroom areas
- Seasonal and Holiday arrangements

To set up a free consultation, call me at 011 186 1347 or feel free to stop by the showroom from Tuesday to Saturday from 5pm - 8pm.

Karizma

flowers and more...
